SUMMARY

Results-driven Software Engineer with over 11 years of experience in designing and developing robust web applications and backend systems. Skilled across the full stack — React, React Native, Next.js, Node.js, PHP, and WordPress — with a proven track record of delivering clean, maintainable, and scalable code.

Extensive experience building enterprise-level WordPress multisite solutions (e.g., Readers Digest), custom plugins, and headless WordPress with Next.js.

Adept at collaborating with cross-functional teams, adapting to dynamic environments, and solving complex problems with creativity and analytical thinking. Passionate about performance optimization, security best practices, and delivering business value through software.

EXPERIENCE

Freelance Full Stack Developer, 02/2025 - Current
Freelance - Remote, India
- Working independently on full-stack projects using React.js, React Native, Next.js, Node.js, Nest.js, and PostgreSQL.
- Built and maintained modern SaaS applications, eCommerce solutions, and API integrations.
- Delivered client-focused solutions with scalable backend systems and high-performance frontends.
- Collaborating with startups and agencies to build MVPs and production-ready web and mobile applications.
- Implementing best practices in code quality, security, and performance optimization.

Lead Software Engineer, 01/2015 - 01/2025
Mango IT Solutions - Indore, India
- Architected and implemented web applications using MERN stack, PHP, and WordPress based on client requirements.
- Developed a custom WordPress theme and multisite sync plugin for Readers Digest, enabling content synchronization across multiple sites with full post/page update support.
- Led a team of 15 developers in delivering scalable, high-performance solutions within deadlines.
- Wrote clean, modular code and implemented custom features across frontend and backend.
- Managed bug fixes, performance tuning, and code optimizations for existing applications.
- Reviewed project requirements, delegated tasks efficiently, and ensured team productivity.
- Provided insights through network performance analysis and real-time monitoring reports.

Web Developer, 02/2014 - 12/2014
Hitaishin Infotech Pvt. Ltd - Indore, India
- Utilized a tech stack including HTML, CSS, JavaScript, and jQuery to create dynamic web pages.

- Analyzed coding requirements for specialized scripts, ensuring efficient execution.
- Translated mockups into functional web interfaces using HTML, JavaScript, AJAX, and JSON.
- Led front-end website development using platforms such as WordPress and HubSpot.
- Adhered to SEO best practices while designing and optimizing sites for search engines.
- Developed technical solutions to accommodate specific user-facing assets, enhancing overall user experience.

Junior Developer, 12/2012 - 02/2014
Empower Integrated Solutions - Indore, India
- Developed cutting-edge web applications leveraging PHP, WordPress, and JavaScript (including Ajax and JSON), ensuring seamless functionality and user experience.
- Employed a comprehensive tech stack encompassing HTML, CSS, JavaScript, and jQuery to craft visually stunning and interactive web pages.
- Demonstrated strong commitment to website security by conducting regular maintenance checks and promptly applying patches.
- Prioritized performance optimization strategies to enhance speed, scalability, and reliability.

Junior Developer, 11/2011 - 11/2012
Himanshu Softech - Dewas, India
- Developed robust web applications utilizing PHP, WordPress, and JavaScript technologies such as Ajax and JSON.
- Demonstrated strong teamwork and collaboration skills by actively contributing to code creation and shared learning.
- Collaborated closely with team leads across projects, gaining expertise in best practices in web development.

ACHIEVEMENTS

- Enterprise WordPress Development: Delivered multisite architecture & sync plugin for Readers Digest.
- Successful Project Delivery: Led and supervised a team of 15 members in React, React Native, Next.js and WordPress development, ensuring the timely delivery of high-quality software.
- Team Management and Productivity: Fostered a culture of collaboration, continuous learning, and employee satisfaction.
- Client Satisfaction and Business Success: Consistently delivered top-quality products and exceeded client expectations.

EDUCATION

Bachelor of Engineering: Information Technology, 01/2011
Rajiv Gandhi Proudyogiki Vishwavidyalaya - Khargone, India
